Hi Rose,

Syd gave me your name this afternoon to get some waste volume information. This is for inclusion in the NNSS Site-Wide EIS. Syd said you had run this query recently and could forward the information or re-run it if necessary.

I need the volume of waste accepted at the NNSS for:

LLW – 1997-2010

MLLW – 2005-2010

If you cannot get this fairly quickly, please let me know. We are working under a bit of a crunch.

Thanks.
